TO WHOM IT MAY CONCERN

REACH REGULATION 1907/2006

According to what provided for by REACH regulation, SO.F.TER. SPA is classified as a “**USER**” of chemicals, therefore SO.F.TER. SPA **is not required to pre-register or register its products**. However continuity in supplying compounds to customers is bound to the mode of operating of chemicals suppliers and manufacturers where raw materials are purchased.

Chemicals pre-registration started on June 1st, 2008 and ended on December 1st, 2008. During this period we received assurances from all our suppliers that they had provided for the registration.

As per the requirements mentioned in **TITLE IV** and **XV** of the REACH Regulation for which SO.F.TER. SPA is liable, we inform you that **they have already been fulfilled**.

For a correct information, it is appropriate to notify that the use of SO.F.TER. products **is meant for production of manufactured items made of plastic materials**. Any use being different from those listed in the Material Safety Data Sheets must be promptly communicated to SO.F.TER. SPA.

We are available for any further information you may need.

Kind regards

Dr. Leone Pachucki
HSE Manager
SO.F.TER. SPA

Forlì, February 2009.
